

Sanity Declaration

I,

serving as

do hereby DECLARE the Constitution of the United States to be perhaps the most monumental in scope, yet most succinct, and most unambiguous documents in the history of mankind despite its modest length of 4,543 words.

I RECOGNIZE any LEGITIMATE legislation proposed under legitimate government should be SHORTER in scope and consequential length than the document whereby that Government was defined, bound and established.

ANY legislation proposed to me exceeding 4,543 words will hereby be received as a HOSTILE PROVOCATIVE effort to OBFUSCATE TREACHERY and PLUNDER my constituents, the American people.

ALL such legislation, regardless of party of origin will hereby AUTOMATICALLY without further consideration receive a NO VOTE from this day forward should it be ONE WORD longer.

I hold this as ONE STEP of many to restore SANITY to the American legislative process.

Signed: _____
